REMARKS

Claims 1-21 are pending in the application. Claim 1 has been amended by clarifying that the table also stores conventional event codes that specify executable actions and that the adaptive event code is treated like a conventional event code when enabled. Claims 10 and 14 have been similarly amended. Support for the amendments can be found on page 8, lines 4-18 and page 9, lines 20-22. No new matter has been added.

Applicants submit that the above claims are patentable over the prior art. Passing of this case is believed to be in order, and a Notice of Allowance is earnestly solicited.

No amendment made was related to the statutory requirements of patentability unless expressly stated herein. No amendment made was for the purpose of narrowing the scope of any claim, unless Applicants have argued herein that such amendment was made to distinguish over a particular reference or combination of references.

In the event that the Examiner deems the present application non-allowable, it is requested that the Examiner telephone the Applicants' attorney or agent at the number indicated below so that the prosecution of the present case may be advanced by the clarification of any rejection.

The Commissioner is hereby authorized to charge any payment due or credit any overpayment to Motorola, Inc., Deposit Account 50-2117.

Respectfully submitted,

Date: October 17, 2007   By: /Larry G. Brown/
